

**Job Title:** Software Engineer

**Job Location:** Bingham Farms, MI

**Description:** Pyramid Solutions' Communication Systems Group is an industry leader in software engineering and network connectivity solutions. We consistently help our customers deliver quality products to market in minimal time and solve their communication and network connectivity challenges. Pyramid is a well established company with a 19 year history of providing high value software solutions across North America and products worldwide.

Candidates will have a strong technical background and leadership skills needed to design, develop, test, and integrate software applications for our range of customers. Candidates will be required to work closely with our customer's engineering staff, which will require periodic, short term travel to customer locations.

**Compensation:** Salary commensurate with experience

**Travel:** Periodic, short term travel to our customer sites.

**Qualifications:**

Ideal candidates will have Bachelor's degree in Computer Science or Computer Engineering and 3+ years of software development experience.

Required skills and experience:

- Strong interpersonal and communication skills
- Ability to develop software and handle multiple projects, processes, and work priorities
- C++/C#/MFC/COM/.NET
- Windows CE, XP, Vista, Windows 7, Embedded Windows Platform Development
- Willingness to travel up to 10%

The following additional skills and experiences is a plus:

- Ability to manage projects, processes, and work priorities
- Experience leading technical resources on small to large software development projects
- Experience with embedded software development and environments
- J1939 and other vehicle Protocols / EtherNet/IP and other industrial protocols

**Reply:** Qualified candidates should submit a resume in confidence to [employment@pyramidsolutions.com](mailto:employment@pyramidsolutions.com). No agencies please.
